

June 8, 1965

Contracting Officer

Subject: Contract No. GN-8653
AF33(657)-14351

In accordance with our discussions, the contract should be changed as follows:

Part VII. Approvals

Paragraph C - Per the attached list

Exhibit "A"

Item 1 (b)

- 1) Size 25" X 14" X 8 1/4"
- 2) Weight 32 to 40 lbs
- 3) Input Power Less than 1 KW
- 4) Lamp rating 2 lamps - 300 watts each

Item I (i)

temperature range of -5°C to +80°C

Period of Performance

Item I 5 months from go-ahead

Item III (b) 8 months after go-ahead

It should be recognized that the changes above to Exhibit "A" are still design goals and could very possibly end up different than that presently indicated. Do you feel that it will be necessary to request changes in the contract in the event that electrical characteristics or mechanical dimensions should change again.

OSA 2697.65

21 June 1965

Dear Gerry:

Contract No. GN-8653
AF33(657)-14351

Relative to my letter dated June 8, 1965 regarding changes to Exhibit "A", I talked to Olin about the changes and he suggested the following:

Exhibit "A"

Item 1(b)

- 1) Smaller than 28 x 16 x 10
- 2) Approximately 40 pounds
- 3) Leave as is - "Less than 1 KVA."
- 4) Lamp rating - 2 lamps - 300 watts each

Item 1(i)

Temperature range of -5°C to $+80^{\circ}\text{C}$

The other items remain per my June 8, 1965 letter. However as stated in that letter, these changes are still design goals and can possibly end up different from the above changes. Will it be necessary to request changes in the event that they do become necessary?

Olin suggested I tell you that the box as changed above exceeds the capability of that originally planned.

Wally
